

Directions from the N2

- 1 So you are cruising toward Cape Town on the N2. You've gone past the informal settlements and are now approaching the southern suburbs.
- 2 You get to the fork where you'd go left to UCT/Newlands or right towards the City. You take the right fork and soon you're traveling around Hospital Bend.
- 3 Alright. Get into the left lane 'cause you need to take the left fork this time onto De Waal Drive (M3), Cape Town's most enjoyable road to drive.
- 4 Enjoy the twists and turns but at the end, under the walkover bridge, beware of the fixed speed trap on the left. The max speed is only 60km/h. Soon after this camera, you must take the sweeping left off ramp (marked for directions to the Table Mountain Cablecar).
- 5 Follow this road as its name changes from Jutland to Mill to Annandale to Orange. Pass the Mount Nelson 5 star hotel on your left until ...
- 6 ...eventually you get to the intersection between Orange, Buitensingle, Long and Kloof. "Long Street Baths" should be on your right.
- 7 Carry on straight up Buitensingle and turn right into Bree Street.
- 8 Travel about 4 or 5 blocks keeping an eye out to your right and voilà! you'll see the big black THULE signage above the entrance to the Load & Go store and drive-in fitment centre on the other side of the road.
