

Directions from the West Coast R27

- 1 So you cruising south on the R27 West Coast road with the splendid view of Table Mountain in the distance ahead of you.
- 2 Through Milneron, past Wood Bridge island on your right, and onto the Paarden Eiland stretch. At the end of the stretch, make sure you take the fork to the left (towards the "City") and NOT the right (towards "Paarl"). Alright. You are now on the N1 toward Cape Town.
- 3 Stick to the right 'cause at the end of the N1, when the road forks, you want to go towards the V&A Waterfront and not the mountain.
- 4 You reach your first set of traffic lights (don't jump any reds, most of these lights have cameras). Go straight and admire the unfinished bridge on your right. You are now on Buitengracht road.
- 5 Carry on until you reach your fifth set of traffic lights - the intersection between Buitengracht road and Wale street. Turn left at these traffic lights into Wale street.
- 6 Then take your first right (at the first set of Wale street traffic lights) into Bree street.
- 7 Travel a few hundred meters (a couple of blocks) keeping an eye out to your left and voilà! you'll see the big black THULE signage above the entrance to the Load & Go store and drive-in fitment centre.
